

4% Trade-out limit – result for previous years

Victoria maintains a 4% limit on permanent water trade each year out of irrigation districts in northern Victoria, in compliance with the National Water Initiative.

The following tables show the final status of the limits as at 30 June of the given year.

2009/10 (as at 30 June 2010)

Torrumbarry Irrigation Area	Low	5,718.8	4,646.5	1,072.3	688.7	5,335.2

Note: The 4% trade-out limit may have been exceeded in some cases due to -

- correction of wrong locations given to some water shares at unbundling
- sale of water shares by a mortgagee (the Water Act does not currently require this to be subject to the 4%), or
- processing issues.
