To include more owner's use Annexure to Form 10 (annexure 1), download at <http://waterregister.vic.gov.au/about/forms-and-fees/water-share-forms>.

## E

## How will the water share be used

**Allocation account**

Would you like to create a new allocation account?

**Yes**  Please create a new allocation account for the limited terms transfer in the proposed holders name(s).

**No**  Please use the following allocation account.

→

**Water-use licence/registration**

If you would like to associate the water share with water-use licences/registrations, list them here.

**i** To associate you must be an owner/occupier of that land or a related person to who is an owner/occupier of that land. By leaving the section blank the water share will become a non-water user.

## F

## Proposed holder(s) of the limited term transfer

**i** The default will be for the holder of the limited term transfer to be held as sole/joint owners by the holders named below. If you wish to record the holders as tenants in common tick this box  and complete F1 and/or F2 and [Annexure to Form 10 \(annexure 3\)](#).

## Explanatory notes

### Limited Term Transfer Approval and Recording

A Limited Term Transfer (LTT) of a water share is a two-step process. Firstly, the water corporation must approve the limited term transfer. Secondly, the limited term transfer must be recorded by the Water Registrar. The limited term transfer is not effective until it has been recorded. The diagram below summarises the transfer process:

#### Water Corporation

Form 10

##### This Form

Lodge this application with your Water Corporation to seek approval for a **Limited Term Transfer of a water share**.

##### Approval

Upon approval of this application the water corporation will send the seller or sellers agent a **Limited Term Transfer of Water Share form**.

#### Water Registrar

##### Transfer Form

Both the owner(s) and the holder(s) need to sign the **Limited Term Transfer of Water Share form** and submit to the Water Registrar within two calendar months from the date of the water corporation's approval.

##### Recorded

The Water Registrar will record the Limited Term Transfer, and the holder(s) will receive the future water allocation under the water share for that period of the LTT.

### General

A limited term transfer (LTT) entitles the holder of the LTT to receive future water allocations under the water share for a period of up to 20 years from the date the LTT is recorded. A LTT can only apply to a whole water share, for a limited and consecutive period. A water share can still be transferred even if it has a LTT in place. However, the LTT remains on the water share until it expires or is surrendered. A water share transfer does not expire or rescind a LTT.

### Nominating an allocation account (ABA)

The proposed holder of the LTT can nominate an existing allocation account (ABA) to link the water share to, subject to it having the same trading zones as the water share. If you do not nominate an ABA, or if the nominated ABA is not compatible, the water corporation will issue you a new one. If the nominated ABA is held by other parties, the buyer is also applying for a standing direction under which the rights to future allocation from the water share is transferred to the holders of that account.

### Holders of the limited term transfer

Like land and water share ownership, a limited term transfer can be held as:

- **Sole holder** - where only one person / legal entity holds the limited term transfer
- **Joint holders** - where two or more people / legal entities hold the limited term transfer together and if one joint holder dies, the whole of the water share term transfer remains with the surviving joint holder, or as
- **Tenants in common** - where two or more people/ legal entities hold the limited term transfer as a defined portion of the water share. Under this arrangement the holders can sell/ rescind their portion without the approval of the other holder. If one of the holders dies the portion that they own passes in accordance with their Will.
- **Tenants in common holding their portions as joint holders** - where two or more people / legal entities hold a defined portion of a water share.

### If the water share owner or Limited Term Transfer holder is a company or incorporated association

Companies must attach an ASIC company extract that is less than 12 months old. Two directors or one director and secretary are required to sign. Incorporated associations must attach an incorporated association extract that is less than 12 months old. The listed secretary is required to sign.

### Rescinding a Limited Terms Transfer

A LTT can be terminated early by the holder of the LTT by lodging for recording a Surrender of a Limited Term Transfer Form to the Water Registrar.

On issue of a LTT any standing direction that was in place for the water share is revoked.

On expiry or surrender of the LTT, the allocation account previously linked to the water share will be reinstated. Accordingly, any standing direction that was previously in place will also be reinstated.

### Carryover

Carryover capacity (based on the water shares held, including by LTT) is calculated on 1 July each year. If your LTT expires on 30 June, your allocation account (ABA) will no longer be linked to the water share when carryover is calculated. If your ABA is not linked to any other water share or active LTT, any unused allocation cannot be carried over and will be written-off.

### Refusal of the Application

The water corporation will send a letter to the water share owner(s), lodging agent, and the proposed limited term transfer holder(s) advising that the application was refused.

After refusal, if the water share owner(s) wish to resubmit the LTT again, a new application form will need to be lodge with another application fee.

### What is happening under the Water Act 1989

This form is an application, where applicable, for the Minister's approval to:

- a limited term transfer (under section 33X 1(b));
- give a standing direction (under section 33TA);
- revoke a standing direction (under section 33TB);
- approval to use water from the water share on land which the water share is not associated (under section 64 K).
